

LEADING PROGRAM IN DOCTORAL EDUCATION UNIVERSITY OF HYOGO, JAPAN

University of Hyogo Leading Program International Symposium 2017 **SCIENCE AND SOCIETY**

"Roles of Basic Science in Drug Discovery"

**Venue: Center of Advanced Science and Technology
(CAST). Hyogo, Japan**

Date: 4-5th, December, 2017

International symposium is an annual program organized by Leading Program of Doctoral Education in Picobiology students. The theme for this year is "Science and Society; Roles of basic science in drug discovery". We will discuss "How does basic sciences research contribute to society" and "The essential leadership qualities required in managing various disciplines of drug discovery". We are looking forward to your participation in the symposium.
